A buyer should instruct his agents and/or surveyors to investigate such details buyer desires validated. This vessel is offered subject to prior sale, price change or withdrawal without notice.

Description

Save the hassle of installing a costly second antenna and use your existing single antenna with VHF/AIS/FM, by enlisting the lightweight, compact NSPL 500 antenna splitter. When combined with the NAIS 500 AIS system, you can see and be seen on the water, whether tackling busy shipping lanes or crowded ports.

Features :

Plug and Play

FM connector for SonicHub™ 2 or any compatible stereo FM unit.

Lightweight Unit

Just 260 grams.

Waterproof

IPX7 standard.

Low Power Consumption

Ideal for sailboats or power boats, the NSPL 500 features a low average power consumption of less than 150 mA at 12 V DC.

Wide Voltage Range

The NSPL 500 is suitable for 12 or 24 V DC systems with a wide range of supported input voltages from 9.6 V to 31.2 V DC.

High Performance with Low Loss

The NSPL 500's high-performance design means no insertion loss on AIS and VHF receive, and low insertion loss on AIS and VHF transmit.
